## **Quote from Coach:**

**“I coach because I love the game of soccer and want to inspire the next generation to love it too. I love forming positive relationships with my players and being a role model for them in soccer and in life. I think being part of a team and working with others to achieve something greater than one person is an experience every kid should have. As a high school teacher I enjoy educating the youth so I approach coaching with a similar mindset.”**
